PROFILE

I am a student and tech builder focused on solving real problems using technology. I design and build systems in education, research, and smart buildings. I enjoy working with teams, building products, and learning new tools.

PROJECTS

ElimuLink – Education Platform

- Built a full system connecting students, universities, and services
- Includes results, fees, dashboards, and AI assistant
- Built using React, FastAPI, and PostgreSQL

InovaMap – Indoor Navigation System

- Helps users move inside buildings like hospitals and airports
- Provides directions, alerts, and safety features

FaidaFarm – Research & Agriculture System

- Collects farm and nutrition data
- Supports research dashboards and analytics

WORK EXPERIENCE

Founder – ElimuTech Kenya Ltd (2025 – 2026)

- Built tools to support students and education services
- Designed system to reduce application delays

Founder – InovaRoute Tech Ltd (2024 – Present)

- Leading development of smart navigation systems
- Managing product design, development, and testing

TECHNICAL SKILLS

Frontend: React, HTML, CSS

Backend: Python (FastAPI)

Database: PostgreSQL, Firebase

Tools: Git, VS Code, Render, Vercel

Concepts: APIs, system design, AI integration

EDUCATION

Bachelor of Education Science

South Eastern Kenya University (2025)

St. Thomas Aquinas Thomeandu Boys
Secondary School (2021-2024)

Kalongo Primary School (2012-2020)

LEADERSHIP

Chairperson – SEKU Innovation & Incubation Club

- Leading student innovation programs
- Coordinating teams and projects

LANGUAGES

English | Kiswahili | Kikamba
