Agri-Enterprise Development Officer

PROFESSIONAL SUMMARY

Results-driven Agri-Enterprise Development Officer with a strong background in agricultural economics, enterprise management, and climate-smart farming practices. Skilled in project implementation, farmer capacity building, and agribusiness development, with proven success in promoting drought-tolerant crops, poultry ventures, and sustainable value chains. Experienced in market analysis, group mobilization, and stakeholder engagement to enhance productivity and profitability for youth and women-led enterprises. Demonstrated experience in conducting field research, training programs, and providing technical support to strengthen community resilience and agribusiness competitiveness. Highly adaptable and committed to driving agricultural innovation, fostering inclusive economic growth, and ensuring operational excellence in dynamic field environments.

CORE SKILLS

Agribusiness Development | Climate-Smart Agriculture | Poultry Production | Crop Management | Value Chain Development | Market Linkages | Farm Operations Management | Enterprise Planning | Data Collection and Analysis | Financial Literacy Training | Farmer Capacity Building | Group Mobilization | Soil and Water Management | Good Agronomic Practices (GAPs) | Sustainable Farming Systems | Project Implementation | Monitoring and Evaluation (M&E) | Report Writing | Stakeholder Engagement | Agri-Marketing | Agronomy | Organic Farming | Training Facilitation | Agricultural Economics | Entrepreneurship Development | Post-Harvest Management | Business Development | Resource Mobilization | Community Development | Agricultural Research | Data Visualization | Digital Agriculture Tools (ODK, CAPI)

CAREER STRENGTHS

- **Analytical Thinking & Problem-Solving:** Evaluates agricultural challenges, identifies production inefficiencies, and develops practical solutions to improve farm productivity and profitability.
- **Critical Thinking & Decision-Making:** Uses sound judgment when planning enterprise activities, selecting farming technologies, and supporting agribusiness operations.
- **Attention to Detail & Accuracy:** Monitors farm data, training reports, and agronomic records to ensure quality control, compliance, and accurate documentation.
- **Team Collaboration & Support Skills:** Works effectively with farmers, field officers, and partners to implement training programs and achieve shared project goals.
- **Communication & Interpersonal Skills:** Builds positive relationships with communities, stakeholders, and colleagues through clear communication and professional engagement.
- **Time Management & Organization:** Plans and prioritizes project tasks, training sessions, and reporting schedules to ensure timely and efficient delivery of outcomes.
- **Adaptability & Flexibility:** Adjusts to changing field conditions, diverse community needs, and emerging agricultural innovations while maintaining consistent performance.
- **Leadership & Mentorship:** Guides youth and women groups in enterprise management, inspiring confidence and encouraging entrepreneurship growth.

PROFESSIONAL EXPERIENCE

Founder and Vice Chairperson | 2024 - Present

Grow Africa Futures, Kenya.

Key achievements:

- Co-founded Grow Africa Futures and contributed to the development of its vision, governance framework, strategic direction, and operational model.
- Led the design and implementation of regenerative agriculture, environmental restoration, and sustainable livelihood initiatives targeting rural and ASAL communities.
- Established strategic partnerships with government agencies, NGOs, research institutions, private sector actors, and community organizations to advance the organization's mission.
- Spearheaded resource mobilization efforts, including proposal development and grant applications focused on climate resilience, agroforestry, youth empowerment, and biodiversity conservation.
- Promoted innovation in agribusiness and value addition through community training, demonstration projects, and market-oriented agricultural interventions.
- Strengthened organizational visibility and stakeholder engagement through advocacy, community outreach, digital branding, and representation in multi-stakeholder forums.

County Implementation Officer | 2024 – 2025

Africa Harvest (Drought Tolerant Crops for Youth Jobs Creation Project), Kitui County

Key Achievements:

- Delivered hands-on training to youth and women groups on Good Agronomic Practices (GAPs), climate-smart agriculture, soil and water management, seed production, and value addition, transforming them into productive agripreneurs.
- Established and supervised demonstration plots for farmer learning, ensuring sustainability and replicability of drought-resilient value chains (sorghum, green grams, millet, pigeon peas).
- Mobilized and mentored youth and women groups on group dynamics, VSLA methodologies, and financial literacy, strengthening agribusiness governance and market readiness.
- Conducted field supervision, providing technical, agronomic, and business development support to youth-led agricultural enterprises to enhance profitability and resilience.
- Collaborated with county government departments, private sector actors, and value chain partners to enhance market linkages and enterprise growth.
- Prepared weekly work plans, M&E reports, and success stories, contributing to program visibility, learning, and continuous improvement.

Creative Director | 2022 - 2024

Greencare Association, Kitui

Key Achievements:

- Designed and implemented community-based training programs on tree nursery establishment, fruit orchard development, and sustainable landscaping, empowering women and youth in agri-entrepreneurship.
- Developed and managed marketing campaigns promoting tree planting, orchard management, and eco-agriculture, driving brand growth and environmental awareness.
- Directed the establishment and management of tree nurseries, woodlots, and fruit orchard projects, aligning with climate-smart and eco-friendly principles.
- Created business strategies to improve the sale and distribution of tree seedlings and agri-products, supporting enterprise profitability and sustainability.
- Engaged local stakeholders through workshops and campaigns to encourage environmental stewardship and smart farming practices.
- Partnered with agronomists, environmental experts, and community leaders to enhance knowledge sharing, promote resilient crop varieties, and build community-driven green enterprises.

Field Agent | 2021 - 2022

Crop Nutrition Laboratory Services Limited, Kenya

Key Achievements:

- Trained farmers on integrated soil fertility management, water analysis, manure and fertilizer analysis, boosting soil productivity and sustainable yields.
- Conducted soil sampling for smallholder and commercial farms (fruit and vegetable producers), supporting informed decision-making and agribusiness planning.
- Interpreted soil and nutrient reports, recommending tailored correction plans to enhance production efficiency and profitability.
- Attended refresher courses on soil health and smart farming trends, applying new insights to improve farmer advisory services and productivity.

Field Agent | 2021

PULA Advisors, Nairobi, Kenya

Key Achievements:

- Implemented crop cut experiments (CCEs) to determine yield performance, supporting agricultural insurance programs and farmer compensation.
- Monitored and assessed field crop conditions during MAM and OND seasons, providing data for climate risk mitigation strategies.
- Participated in surveys assessing climate change impact on agricultural productivity and rural livelihoods.

- Trained enumerators on agricultural insurance processes, data quality, and loss assessment to strengthen field-level efficiency.
- Collected and managed farmer data, ensuring integrity and accuracy in digital reporting systems.
- Engaged with county government officials and stakeholders to enhance collaboration and support for farmer-centered initiatives.

Technical Agronomist | 2019 – 2020

Zelena Grow Limited, Nairobi, Kenya

Key Achievements:

- Advised farmers on innovative agronomic practices, soil fertility management, and sustainable land-use strategies to maximize productivity and income.
- Conducted pest, disease, and soil assessments, recommending timely and cost-effective interventions for yield improvement.
- Collaborated with growers to conduct on-farm trials and optimize results through evidence-based decision-making.
- Presented technical research findings to farmers, translating scientific insights into practical agribusiness improvements.
- Designed and managed weekly organic farming trainings to promote environmentally responsible practices.
- Generated detailed reports, work plans, and progress summaries to inform management and support enterprise growth.

Trainer of Trainees | 2018

Adventist Development Relief Agency (ADRA), Nairobi, Kenya

Key Achievements:

- Trained farmers on climate-smart and conservation agriculture techniques such as irrigation, terracing, pest management, and post-harvest handling.
- Delivered financial literacy and agribusiness training sessions to enhance rural entrepreneurship and household incomes.
- Managed farmers' data collection, verification, and upload processes, improving monitoring and reporting efficiency.

Intern | 2017

Kenya Agricultural and Livestock Research Organization (KALRO), Machakos, Kenya

Key Achievements:

- Participated in agricultural research focusing on maize improvement, biotechnology, and grain legumes for dry land farming systems.
- Supported studies on soil and water management technologies suitable for arid and semi-arid zones.
- Contributed to livestock research on pasture management and disease control, promoting mixed farming systems for smallholders.
- Collaborated with researchers and stakeholders in disseminating improved technologies and fruit tree varieties to local farmers.

EDUCATION

BSc Agricultural Economics and Resource Management | 2018

Moi University, Second Class Honors, Upper Division

Kenya Certificate of Secondary Education (KCSE) | 2013

St. Charles Lwanga School, Grade: B+ (70/100 Points)

Workshops/Seminars

- Climate Smart Agriculture Seminar – SNV Kenya, Machakos | July 2021
- Integrated Pest Management Workshop – ICIPE, Kitui | Sept 2021
- Value Addition on Guava and Cowpea Leaves Workshop – University of Nairobi, Kitui | Sept 2021
- Basic Soil Health - Crop Nutrition Laboratory Services, Limuru | November 2022
- Natural Resource Management and Policy Advocacy - Resource Conflict Institute | February 2023
- Generate Your Business Ideas (GYBI) training of International Labor Organization, Start and Improve Your Business (ILO-SIYB) | September 2023.
- Leadership and Personal Growth Movement, Beyond Success - Dr John Maxwell | July 2024.

Awards & Recognitions

- Agripreneur of the Year Award – People’s Choice Awards Kenya | Aug 2022
- Agribusiness Innovation Award – PLUG Mtaani Vijana 2Invest Business Idea Competition | Sept 2023
